# Pull Your Tiny Home Right Under Our SZU Electrified Exterior.

# Airbnb Anyone?

# Group SZU into a Net Zero or Off-Grid Community.

**The SZU can be a Climate Controlled and Shaded Storage.**

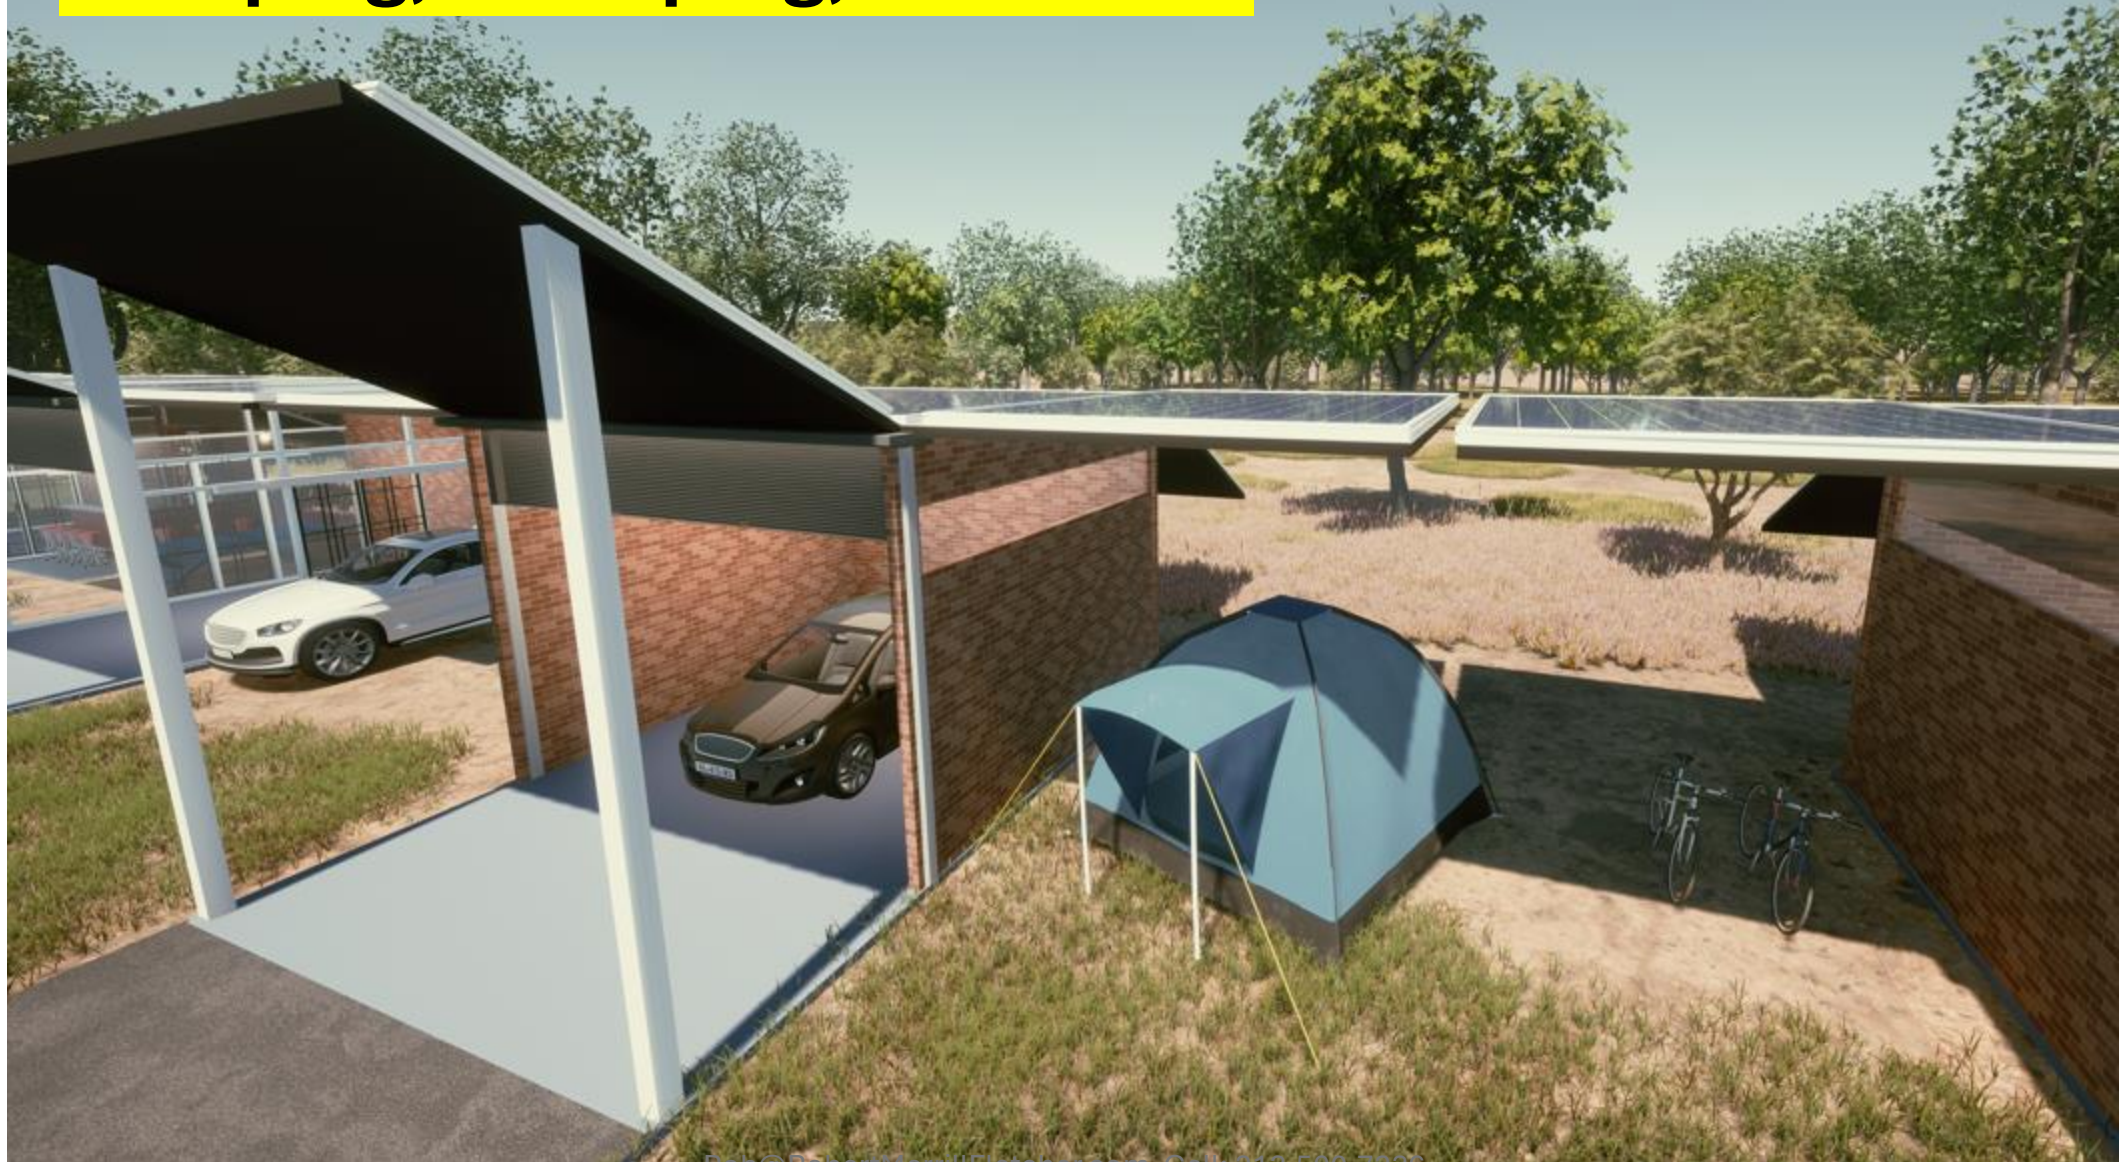

**The Ergonomic Design Allows for Efficient Land Usage.**

# Developers Take Note... Voila! Instant Development.

# Camping, Glamping, and More.

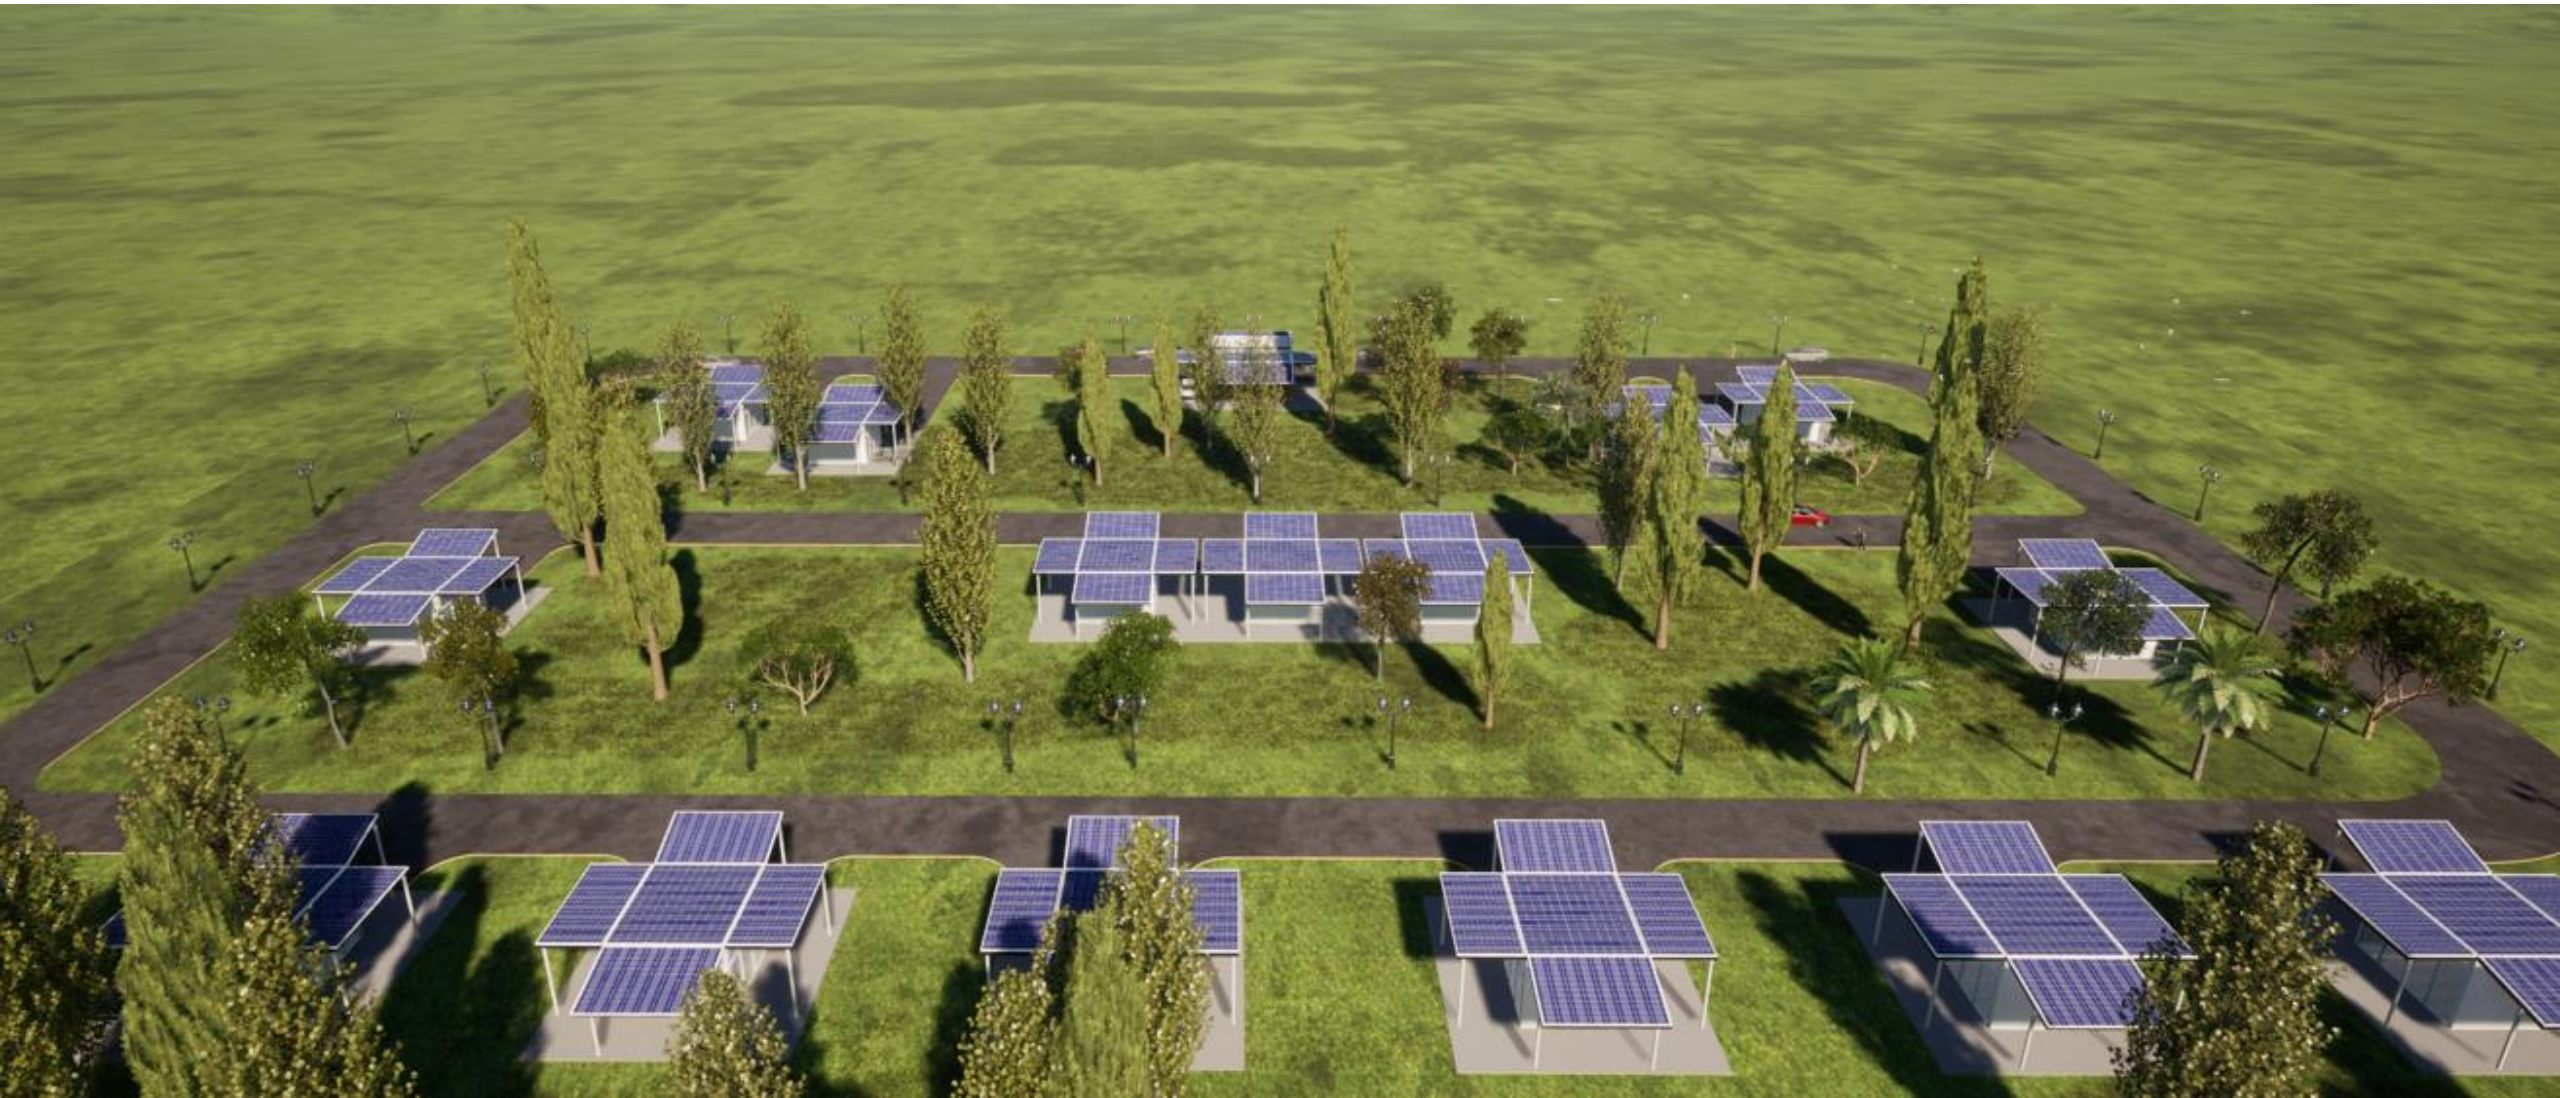

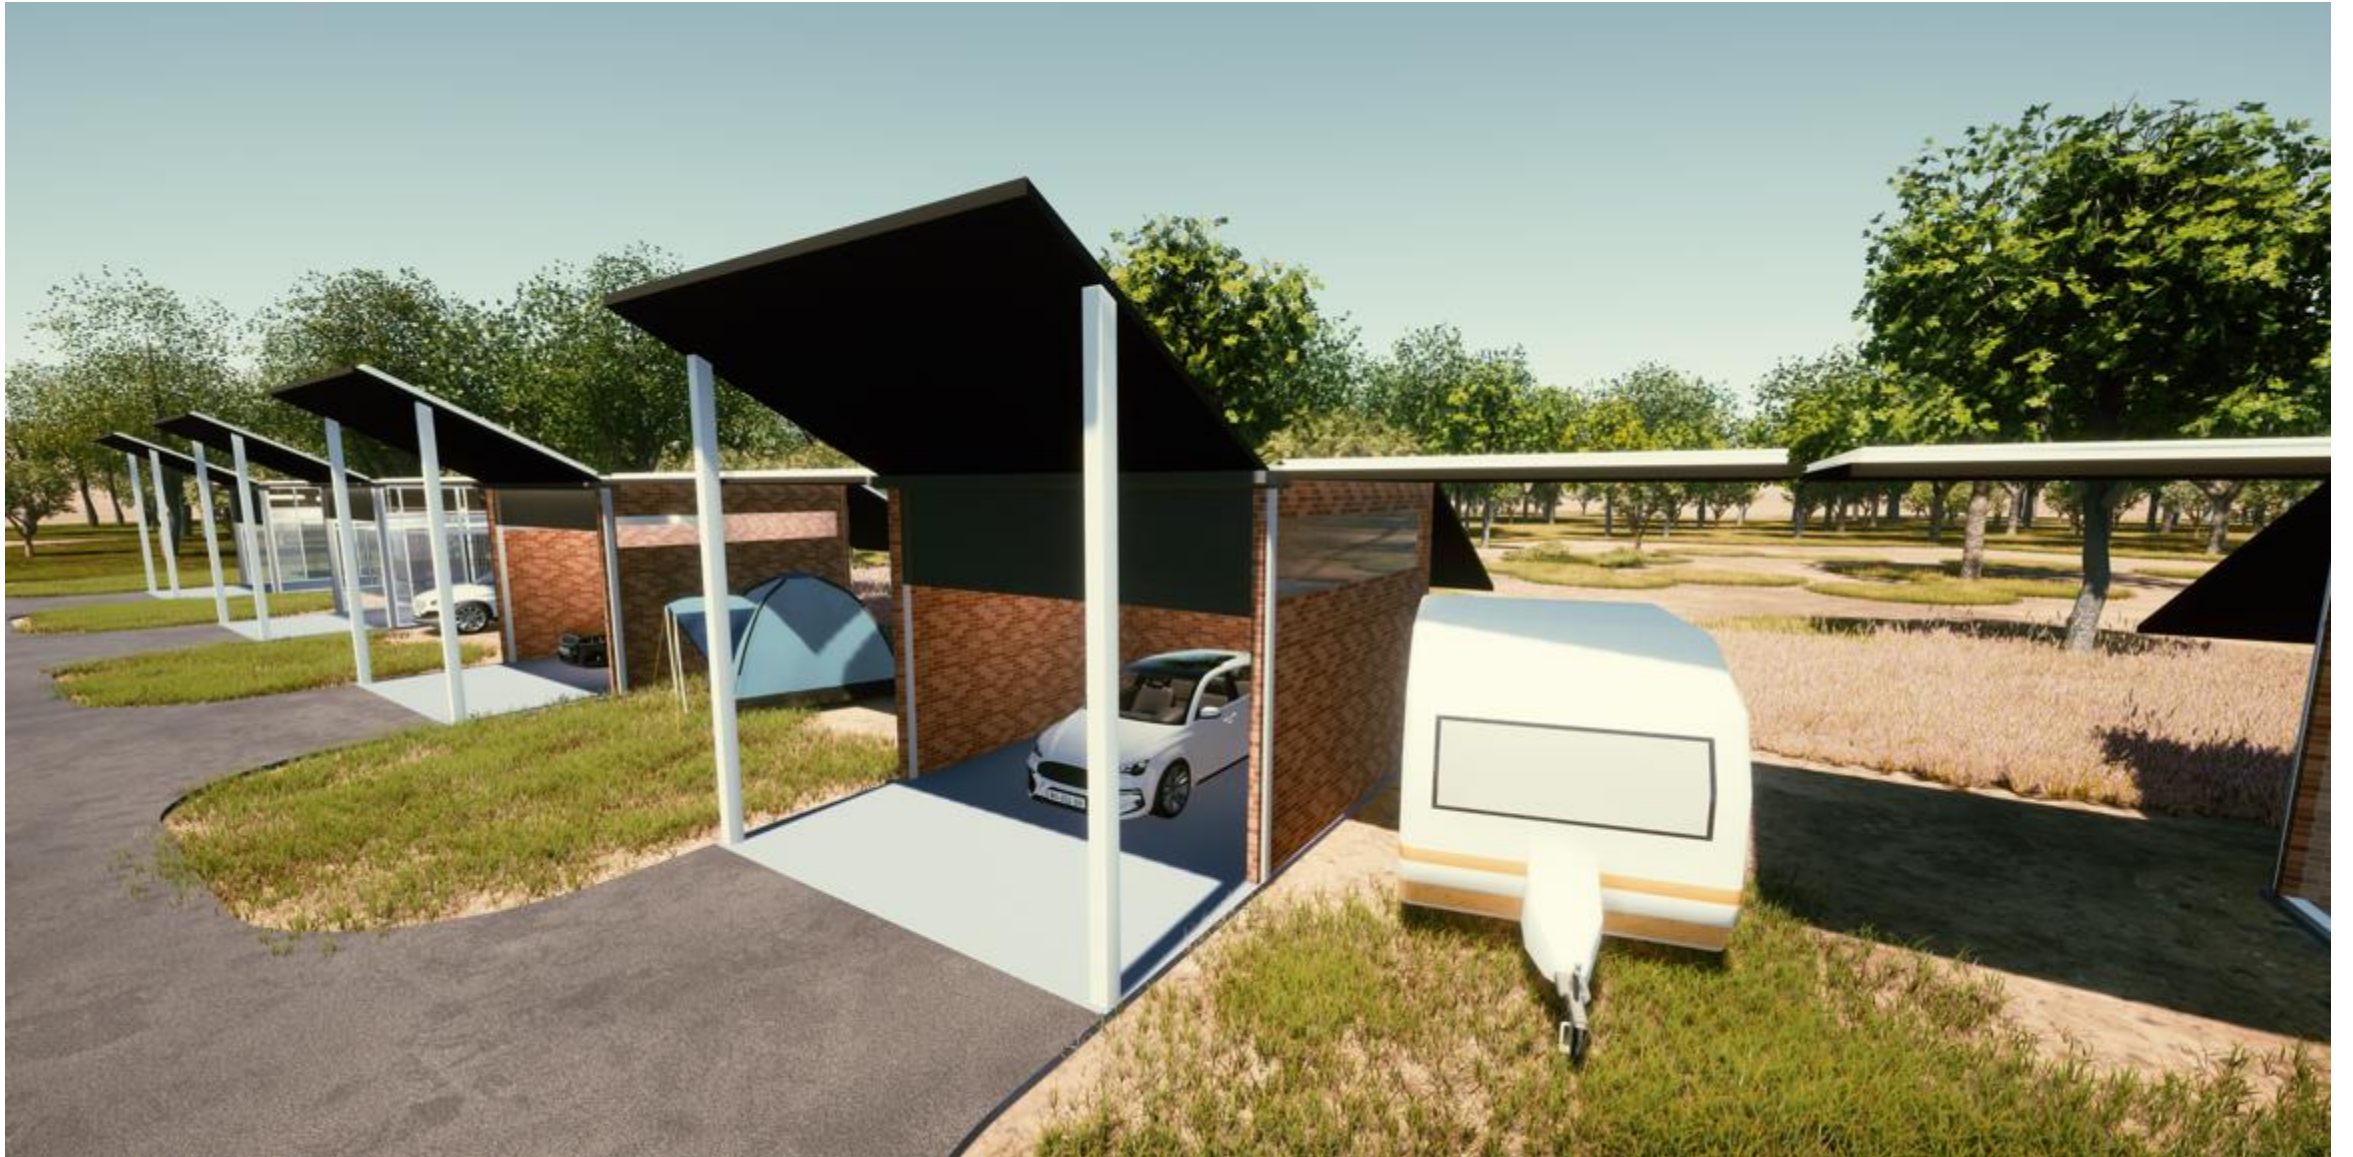

**18,000 kWh per unit. 1.3 MW for 75 Units.**

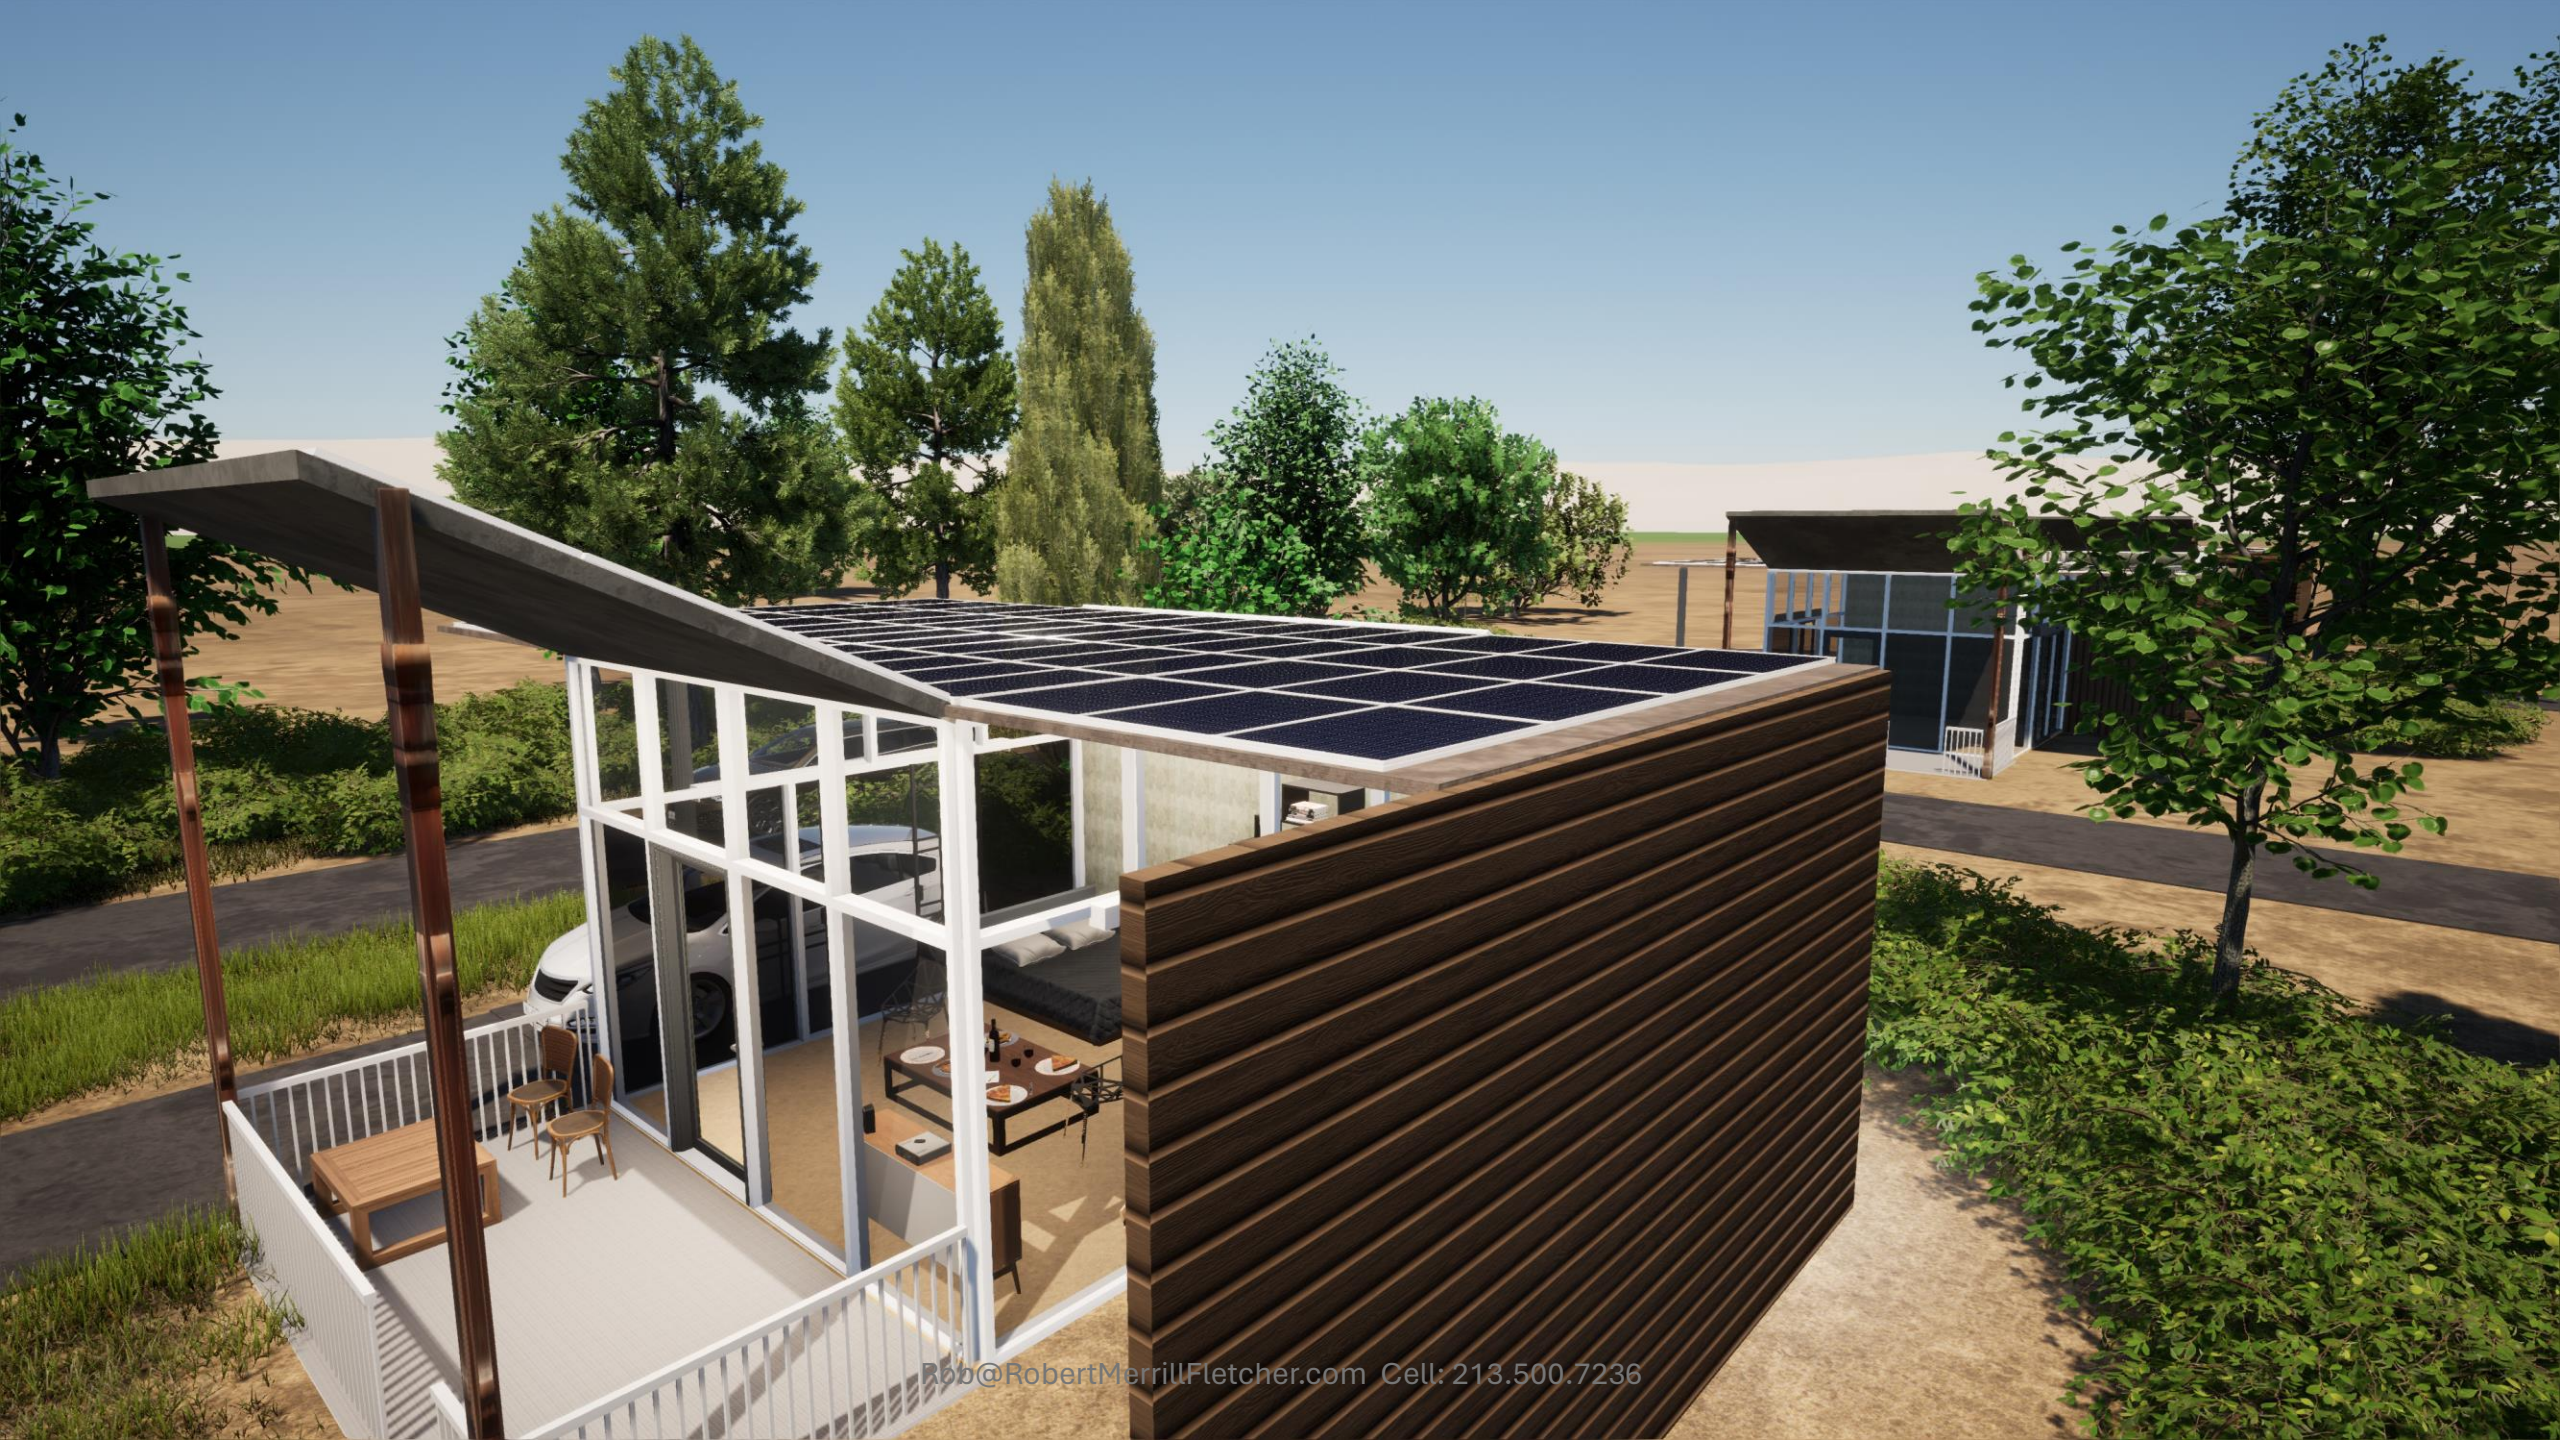

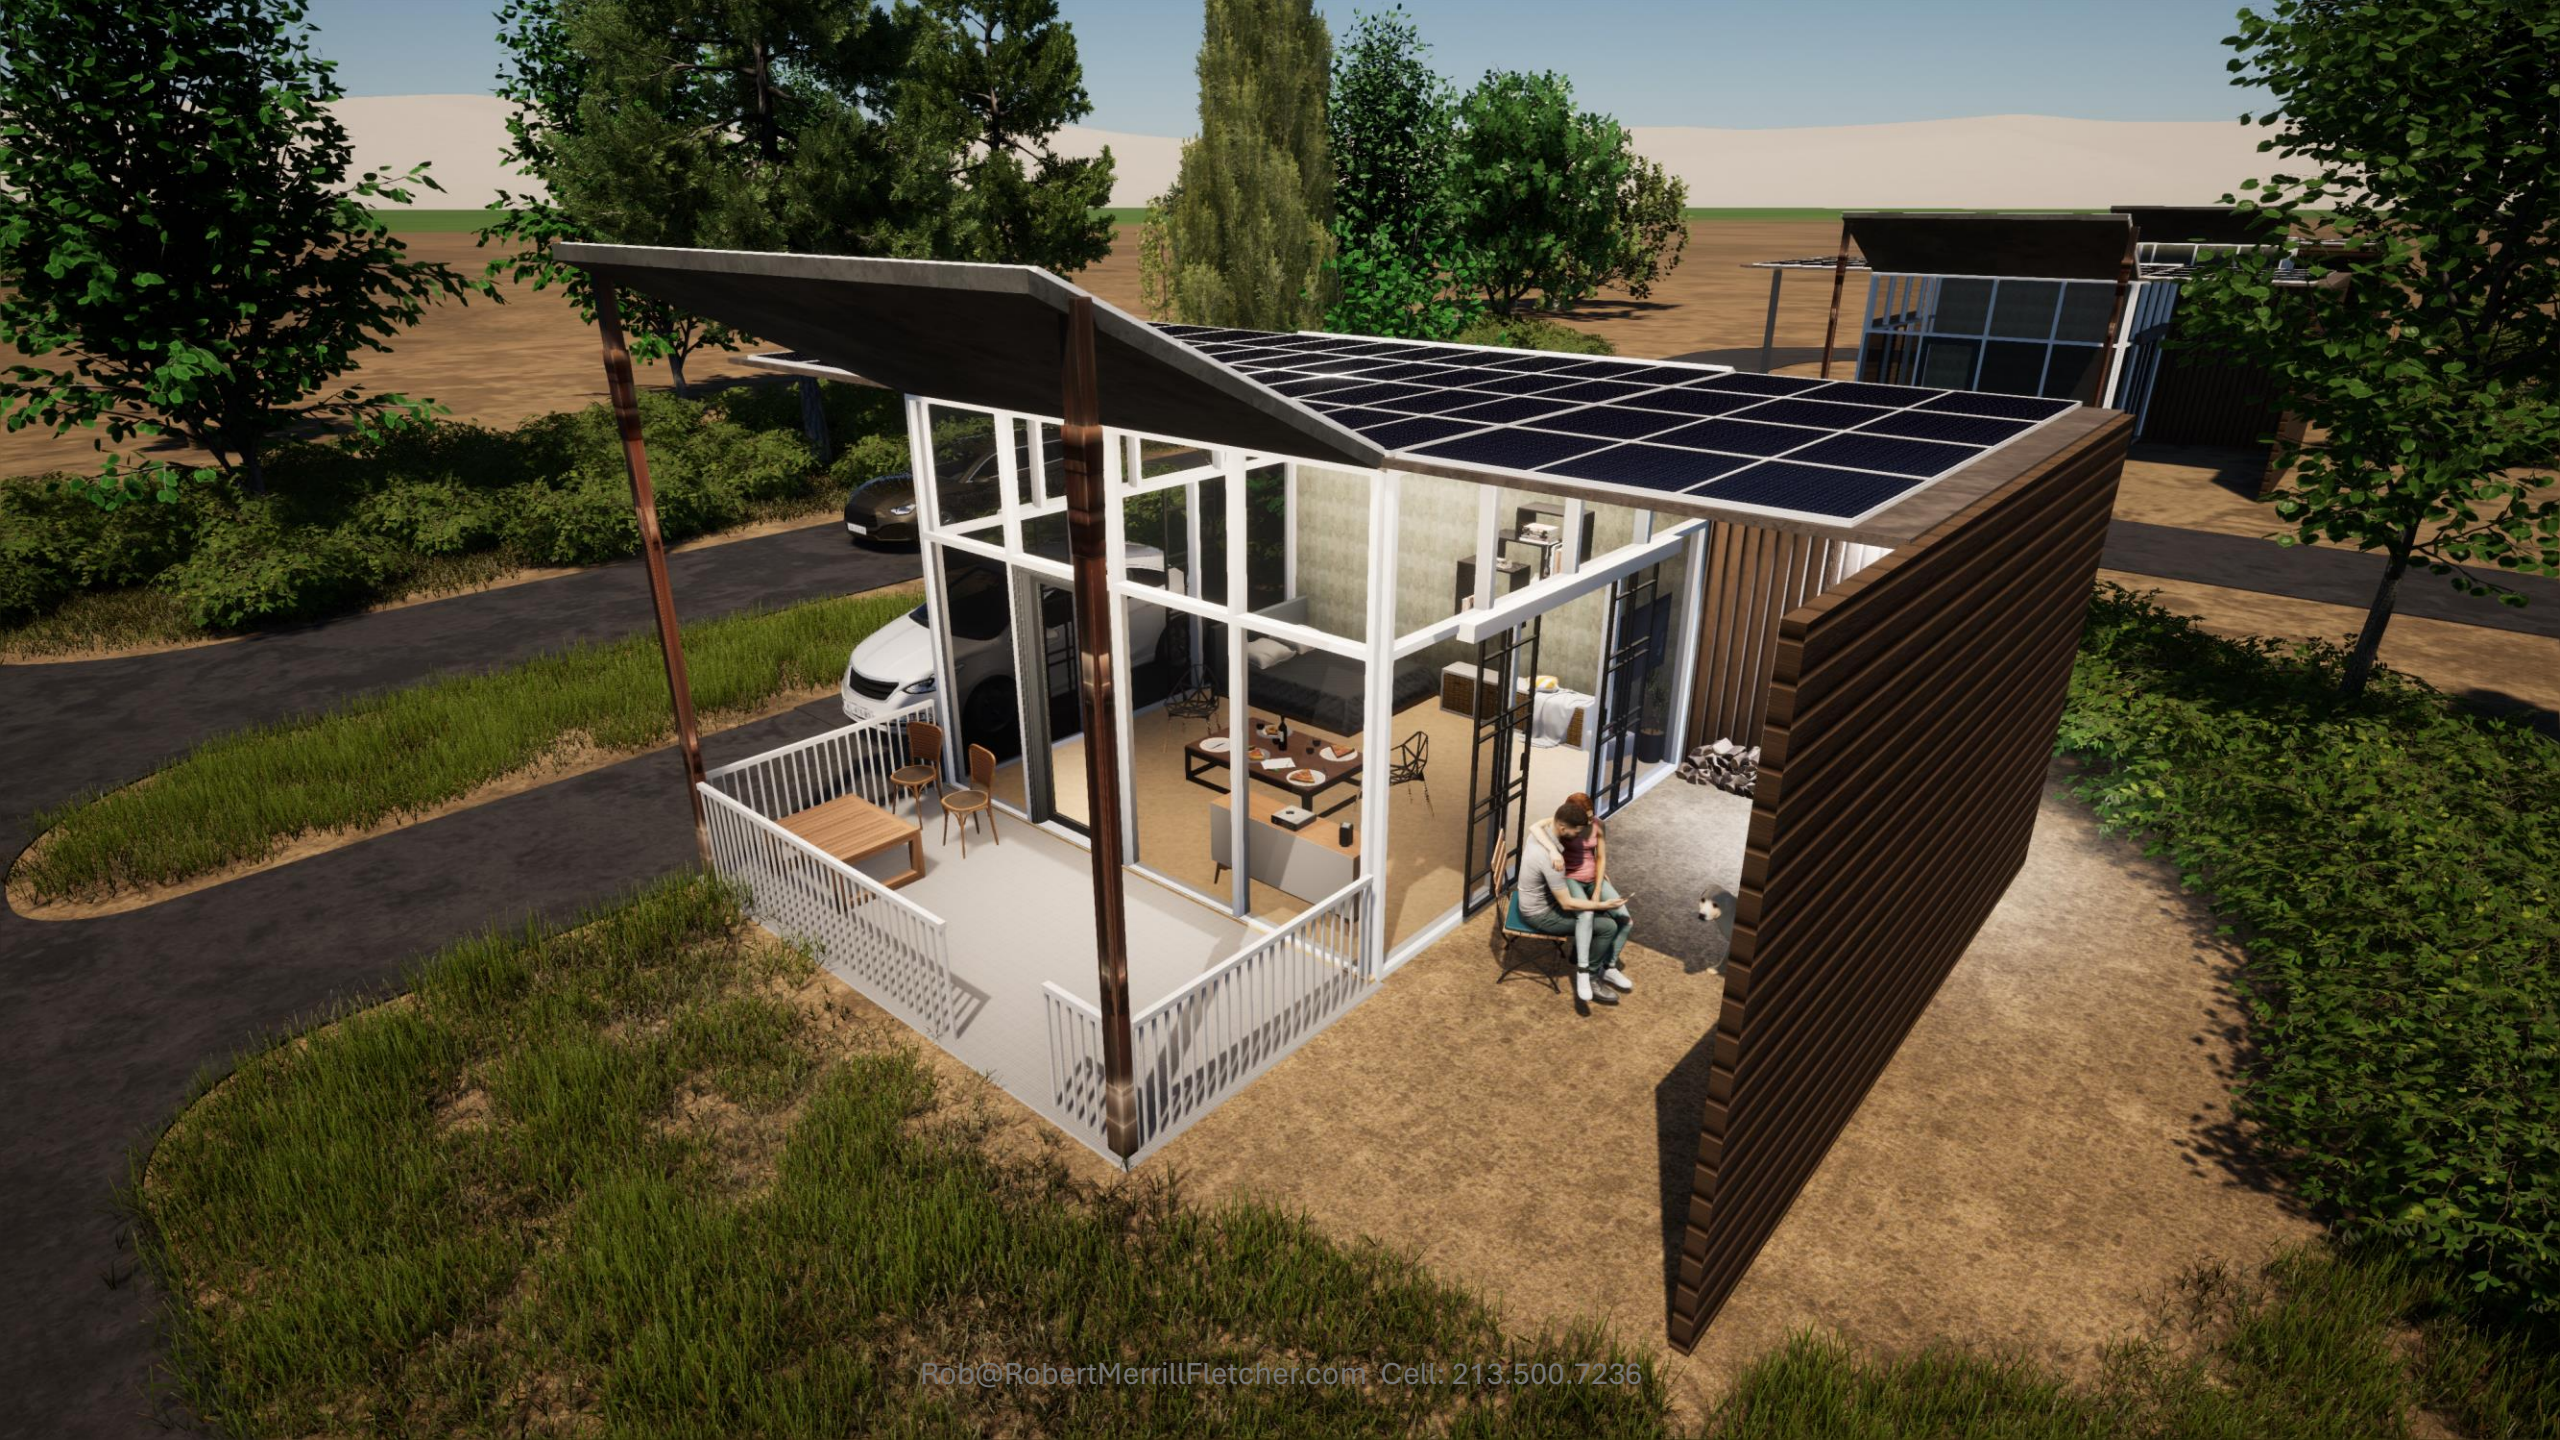

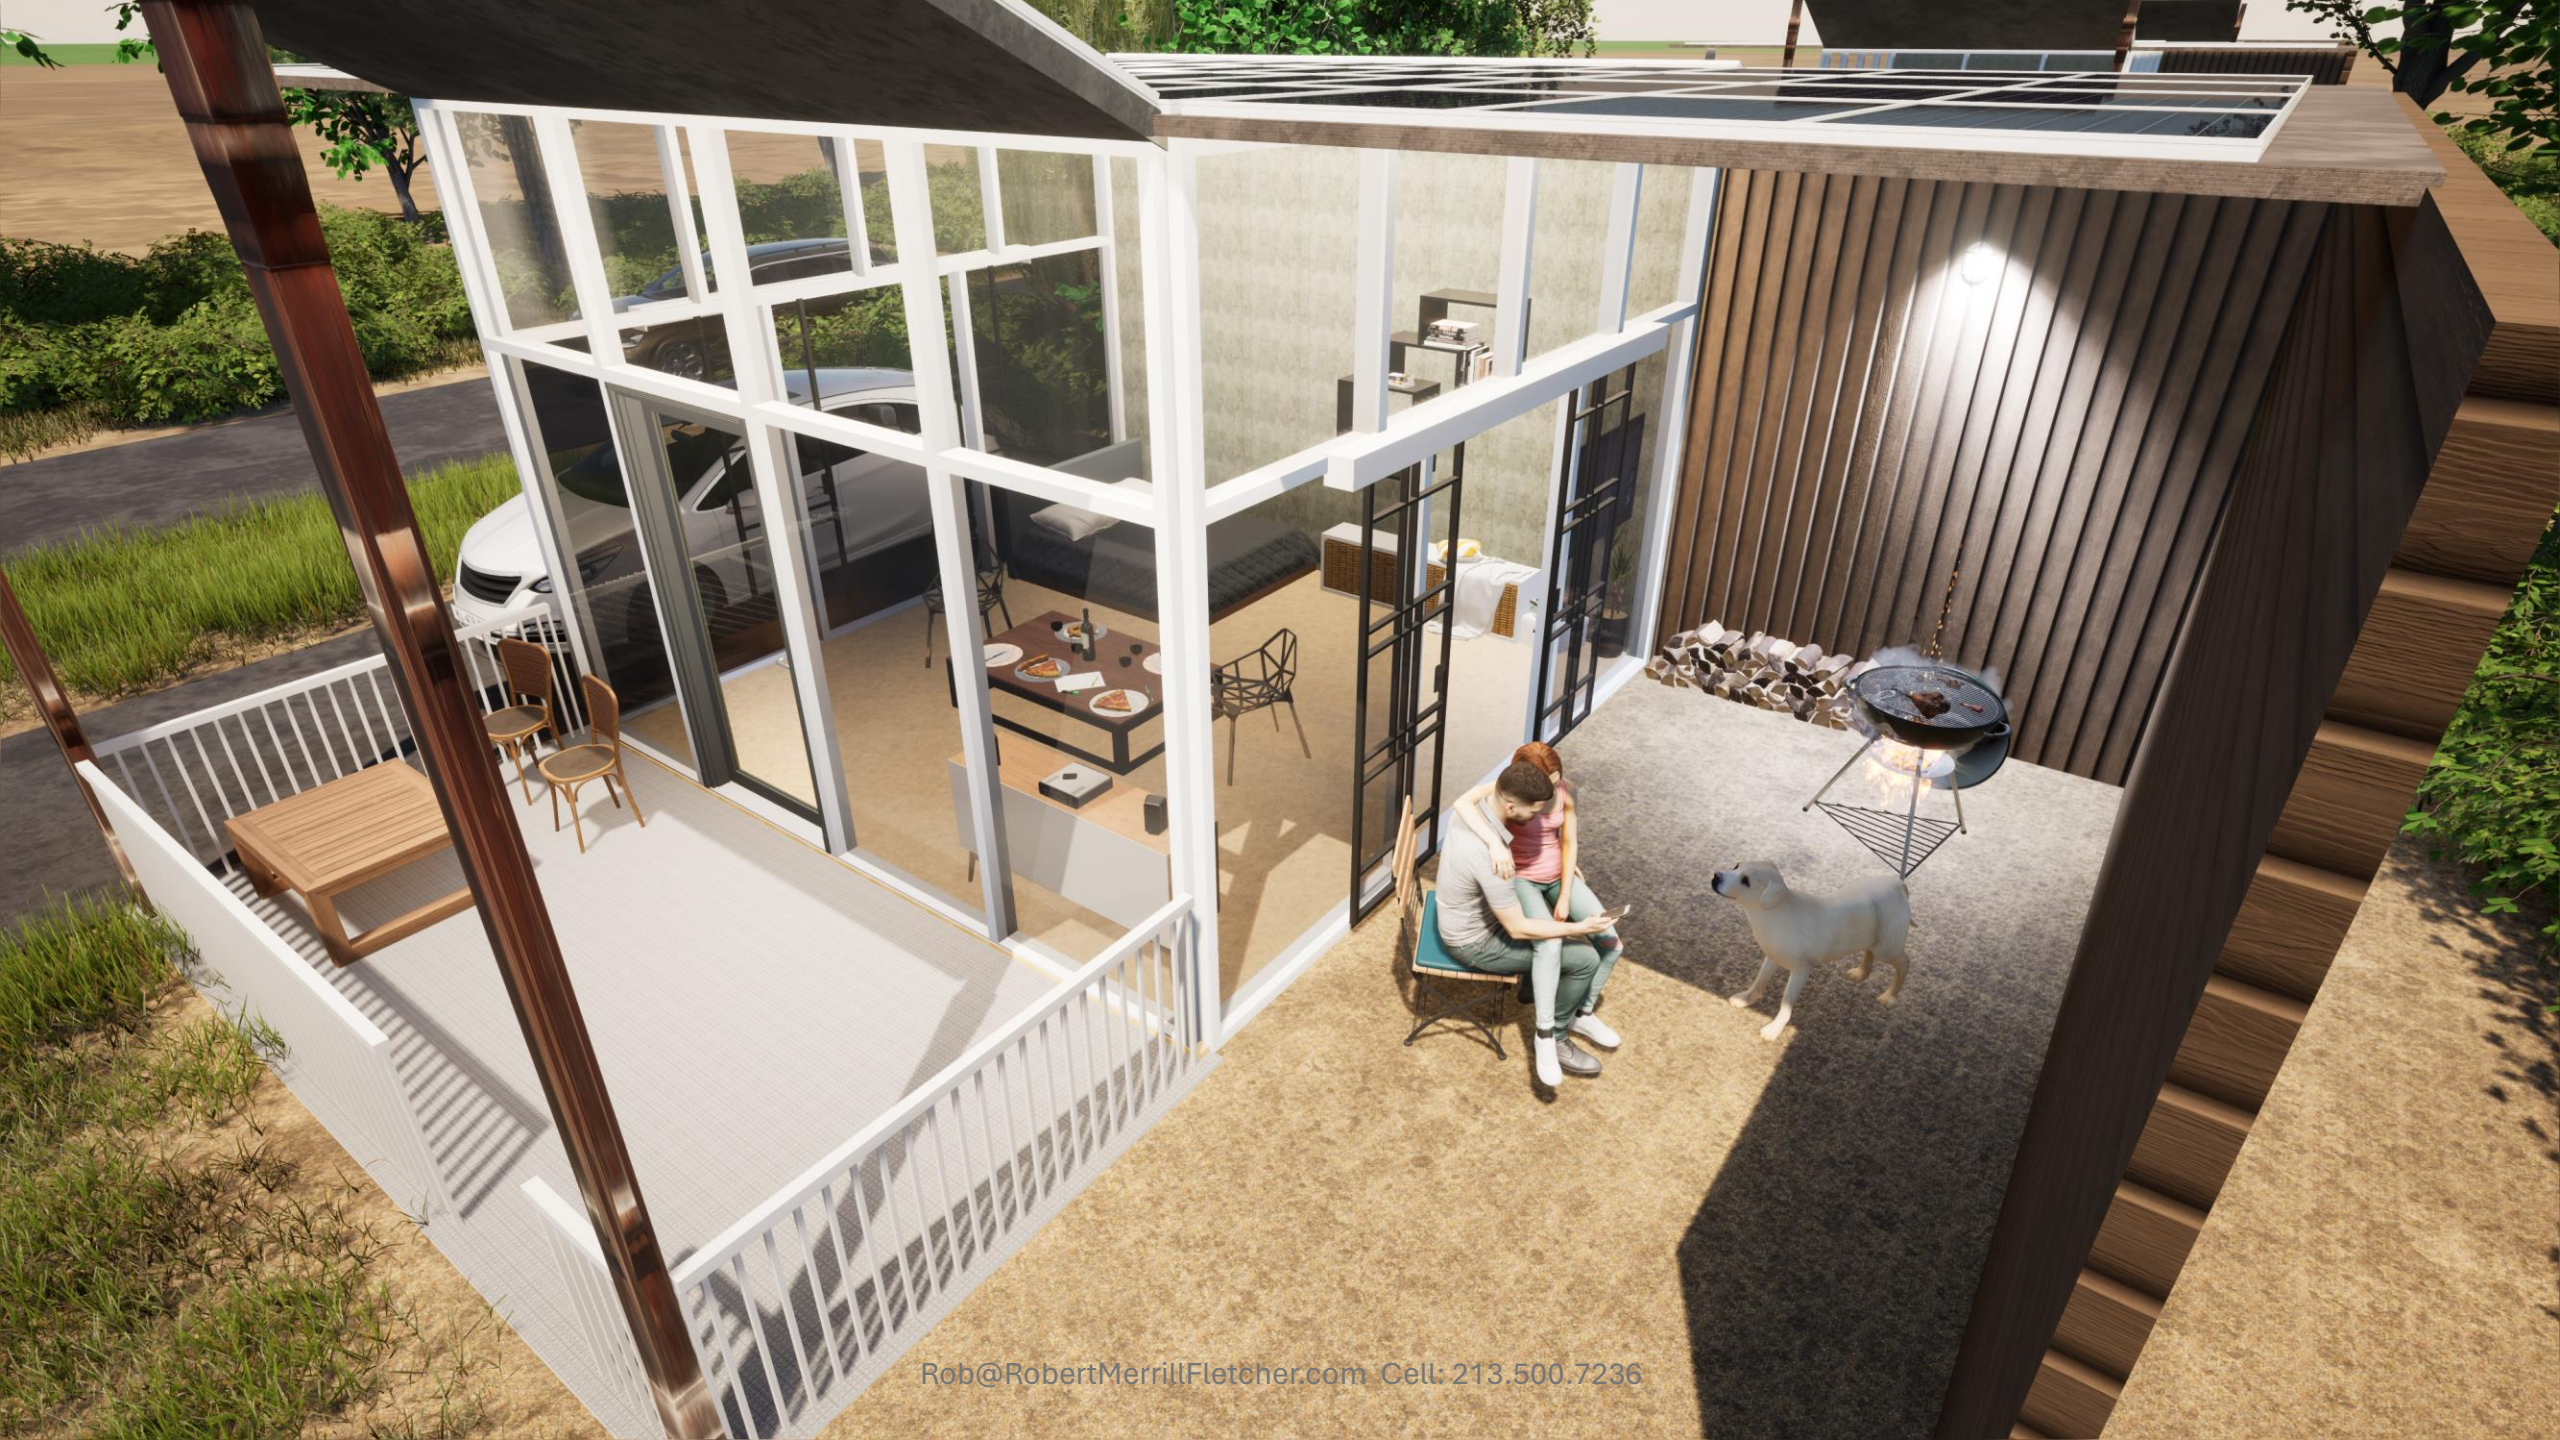

# We Just Like the Looks of These Units and the Off-Grid Solutions They Represent.
